

Summer Camp for Pre-K & Kindergartener

Katy GT Academy delivers superb education programs and innovative extracurricular activities. Our objective is to empower our students to excel from social intelligence to academic achievement through various missions driven engagement. Our summer camp for this group is to Sharpen Learning Skills, Self-Challenge, Improve Problem-Solving skills, GT preparation. **We had 85% successful rate for Katy ISD GT test while KISD has 2% GT acceptance rate.** Learning Can Be FUN!

Wonder of Nature - Children will experience a full week of amazing animal interaction with fun activities; include animal themed game, song, craft, cooking and much more! Before they realize it, they have learned math, reading, writing and science, etc. (6/5-6/30)

Travel Around the World – Children will learn the famous places, people and language; know people living, food and clothes for the people in the different countries and the continents. There will lots of foreign language, reading & writing, painting, cooking and math metric conversion involved. (7/3-7/28)

Solar System - Children will make Solar System model and learn about the planets and stars. They will find out why we have four seasons; why there are days and nights; why the moon has different phases; why the star twinkles; and many other mysteries. This will involve many reading comprehension, math and science (7/31-8/11)
